

DPD 5620-60

25X1A

July 1960

MEMORANDUM FOR: Chief, Electronics Division, OSI

25X1A

SUBJECT : Project [REDACTED] Report

REFERENCE : Memo to C/DPD from C/ED/SI dtd 25X1A  
8 Jul 60, Subj: Project [REDACTED]

25X1A

1. Discussions with the [REDACTED] contractor and OSI representatives have resulted in the following agreements relative to the format and contents of the [REDACTED] report:

25X1A

a. The first portion of the report will outline the background of the problem, the theoretical considerations involved, the actual equipment configuration, the readout techniques and gear involved, and the testing operations conducted in the Continental United States.

b. The second portion of the report will describe the actual field operations and the results and conclusions relative to the victim radar.

2. The first portion of the report will encompass the information contained in chapters 1 through 5 of the contractor's report. It is desired that the information contained in page 6 of the contractor's report not be included in the report to be published by OSI.

3. The second portion of the report will present and clarify, where necessary, the information contained in chapter 6 of the contractor's report. This chapter describes in detail the field operations and the results thereof. It is requested that no reference be made to the material contained in chapter 7 of the contractor's report.

4. The items requested in paragraph 4 of reference have been forwarded to OSI.

STANLEY W. BLERLI

Colonel, USAF  
Acting Chief, DPD DD/P
